Growers of all kinds	Hotels & Resorts	Hotels, Restaurants & Theme Parks	Hotels, Resorts & Restaurants		

**South Florida Water Management District**  
**3301 Gun Club Road**  
**West Palm Beach**  
**(561) 686-8800**

**Driving Directions**

From I-95 North/South: Take the Southern Blvd. exit **West** to Congress Ave. Go **South** (left) on Congress Ave. to Gun Club Rd. Go **West** (right) on Gun Club Rd. The SFWMD will be on the **North** (right) side of Gun Club Rd.

From Turnpike North: Take the Okeechobee Rd. exit **East** to Military Trail. Go **South** (right) on Military Trail to Gun Club Rd. Go **East** (left) on Gun Club Rd. The SFWMD will be on the **North** (left) side of Gun Club Rd.

From Turnpike South: Take the Lake Worth Rd. exit **East** to Military Trail. Go **North** (left) on Military Trail to Gun Club Rd. Go **East** (right) on Gun Club Rd. The SFWMD will be on the **North** (left) side of Gun Club Rd.

### Parking Information

The workshop will be held in the S.F.W.M.D. B-1 building Auditorium and meeting rooms. Visitor parking is available in front of the B-1 building, and in Lake Lytal Park, which is **West** of the SFWMD site. Shuttle service is available from the Lake Lytal parking area.

**B-1 parking:** Enter the **West** entrance of SFWMD and follow the “Visitor Parking” signs. The visitor parking area is the parking area in front of the B-1 building.

**Lake Lytal parking:** Enter the **East** entrance of Lake Lytal Park, and follow the main drive all the way to the end. Turn **East** (right) and park in any of the 3 designated areas shown on the map. There are S.F.W.M.D. parking signs along the route to help direct you.

## **NOTICE OF PUBLIC WORKSHOP**

The Department of Environmental Protection announces the second public workshop of the Florida Water Conservation Initiative to which all persons are invited:

**DATE AND TIME:** August 15, 2001 from 9:30 a.m. to 4:30 p.m.

**PLACE:** South Florida Water Management District, Governing Board Auditorium, 3301 Gun Club Road, West Palm Beach, FL, 33406

**PURPOSE:** To provide information on the Florida Water Conservation Initiative that has been established pursuant to the state's Drought Action Plan, and to continue receiving public input on water conservation issues. The primary goal of the workshop is to continue gathering information in preparation for developing a November 1, 2001 draft Department report on ways to increase water use efficiency. Representatives from the Department, the five water management districts, the Public Service Commission, and the Department of Agriculture and Consumer Services will be present at the workshop and wish to encourage participation from the public and all water use sectors and other interested parties, including public and private water suppliers, agriculture, commercial users, industry, developers, commercial landscaping and grounds maintenance companies, golf course and hotel managers, environmental groups, local governments and state agencies. Meeting attendees will be encouraged to participate in the "Work Groups" that were formed at the first public workshop on June 29, 2001. The work groups are developing recommendations to improve the conservation and efficient use of water (including reclaimed water) throughout the state. Water users, environmental groups, and other parties are welcome to participate in more than one Work Group if they choose to do so. The following Work Groups have been formed:

Non-Agricultural Irrigation

Indoor Water Use and Water Features

Agriculture

Industrial, Commercial and Institutional

Water Pricing to Promote Conservation

Water Reuse

The Work Groups will meet for much of the day on August 15 and continue separately after the workshop ends. Written recommendations from each Work Group are requested by October 1. Each Work Group will be asked to develop priority recommendations that will result in significant savings of water over either the short term or long term. The recommendations from the public workshop and the Work Groups will be important to the Department in preparing its water conservation recommendations.

No Registration for the meeting is necessary. A copy of the agenda, workshop location and a description of the Florida Water Conservation Initiative may be obtained by contacting Yvonne Zola (Florida Department of Environmental Protection, 2600 Blair Stone Road, Mail Station 46, Tallahassee, Florida 32399-2400; phone 850/488-0784; email [Yvonne.Zola@dep.state.fl.us](mailto:Yvonne.Zola@dep.state.fl.us)).

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop is asked to advise the agency at least 48 hours before the workshop by contacting the Personnel Service Specialist in the Bureau of Personnel at (850) 488-2996. If you are hearing or speech impaired, please contact the agency by calling 800-955-8771 (TDD).
